A. Coauthor, Department of Oceanography, Any-State University, Swampville, AB, 12345-6789, USA

The template for the PanAmerican PI meeting is quite simple. Please submit a one-page abstract **in PDF format (using Acrobat or other software that is compatible with Acrobat 3.0)** that follows the guidelines specified herein. Abstracts should be placed on an 8.5 by 11-inch page with 1-inch margin from all sides.

All text should utilize the Helvetica font. If this font family is not available, an alternative sans-serif font should be used. The title (bold type, 14-point font) should be centered at the top of the page followed by a single space and then authors and affiliations (still centered) in size 12-font (as demonstrated above). The presenting author should be underlined. Please include complete mailing address and email information for each author.

Following the affiliation information, insert a blank line. Abstract content should use left and right-justified (first line indented 0.5 inches) paragraph style, single or 1.5-line spacing, using Helvetica 12-point font.

Images and figures are allowed to the extent of fitting comfortably on the single page abstract. Suitable labels and legends should accompany them. Images and figures will be reproduced in black and white as they appear in the PDF file. Authors are encouraged to check legibility of all text and figures as they appear in the PDF file to insure the quality of the abstract is suitable for distribution.

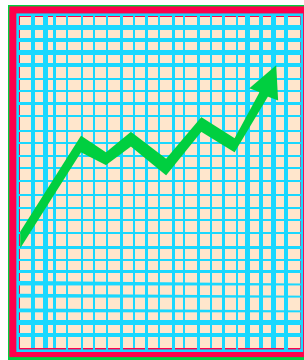

Figure 1: Funds available for US CLIVAR research: 2001-2010

Please send (via email) abstracts (included as a PDF attachment) to Diane Lask [lask@ucar.edu](mailto:lask@ucar.edu). Authors not able to submit the abstracts in the required form should contact the organizers (David Legler; [legler@usclivar.org](mailto:legler@usclivar.org)) for assistance. All abstracts will be posted on-line as they are received.
